

Security Export Control **after** graduation

Researchers at Tokyo Tech shall recognize that they are responsible for assuring the quality of the specialized knowledge and skills that they themselves create, and for using their expert knowledge, skills, and experience to contribute to the health and welfare of humankind, the safety and security of society, and the sustainability of the global environment. In order to maintain world peace and security, the use of technical information provided for research into the development, manufacture, use, or storage of weapons of mass destruction (nuclear, chemical, and biological weapons and missiles that are capable of carrying them, unmanned aerial vehicles, etc.), conventional weapons, or materials, components, or products used in such weapons is prohibited.

The use of such technical information is limited to consumer use only.

In the following cases, **YOU must follow the prescribed procedures, including the relevant determination**, in accordance with the Foreign Exchange and Foreign Trade Act and related laws and regulations based thereon.

Although it is necessary to obtain prior permission from the Minister of Economy, Trade and Industry, taking sensitive technology out of the country without said permission is a **violation of the law** and may result in criminal penalties.

✓ Unpublished technical information, such as pre-thesis data provided by Tokyo Tech, will be taken overseas (especially), sent, or shared with other countries via cloud computing or other means.

✓ Research products or samples from Tokyo Tech will be taken or sent overseas.
